

20th International ACM

# SIGACCESS

Conference on Computers and Accessibility

OCTOBER  
22-24  
2018

GALWAY, IRELAND

**The ASSETS conference** is the premier forum for presenting research on the design, evaluation, and use of computing and information technologies to benefit people with disabilities and older adults.

We invite high-quality, original submissions on topics relevant to computers and accessibility. All contributions are peer-reviewed by an international Program Committee. Accepted papers and the abstracts for posters and demonstrations, experience reports, and the student research competition will be archived in the ACM digital library.

ASSETS strives to publish research that carefully addresses the issues involved when individuals with disabilities interact with information technologies.

ASSETS invites submissions in the following categories:

- Technical Papers
- Posters and Demonstrations
- Experience Reports
- Doctoral Consortium
- Student Research Competition
